

PROGRAM-3

CODE:

```
1  #include <stdio.h>
2  #include<stdlib.h>
3
4  int main()
5  {
6      int magic,guess;
7      magic=rand();
8      printf("Guess the number: ");
9      scanf("%d",&guess);
10     guess==magic ? printf("Right Guess!"):printf("Wrong Guess!");
11     return 0;
12 }
13
```

OUTPUT:

```
Guess the number: 10
Wrong Guess!
```
