

PROGRAM-8

CODE:

```
C Program_8.c > revstr()
1  #include <stdio.h>
2  void revstr();
3  int main(){
4      printf("Enter the string: ");
5      revstr();
6      return 0;
7  }
8
9  void revstr(){
10     char c;
11     scanf("%c", &c);
12     if (c != '\n') {
13         revstr();
14         printf("%c", c);
15     }
16 }
```

OUTPUT:

```
PS D:\C Programs> .\Program_8.exe
Enter the string: my name is amogh garg
grag hgoma si eman ym
PS D:\C Programs> 
```
